For Sale : **€ 345,000**

Description
2-Bedroom Apartment – Bedroom Details
The master bedroom is designed as a spacious and private sanctuary within the apartment. It easily accommodates a large double or king-size bed, bedside furniture, and additional elements such as a dresser or small work corner if desired. The layout ensures smooth circulation space, preventing the room from ever feeling crowded.
Built-in wardrobes provide generous storage, while large openings allow natural light to fill the room, enhancing comfort and wellbeing. The direct access to an ensuite bathroom in many layouts adds an extra level of privacy and convenience, making the master bedroom feel like a self-contained personal suite.

The second bedroom is also well-proportioned, avoiding the narrow or undersized layouts often found in smaller apartments. It can comfortably function as a children's bedroom, guest room, or home office, depending on the owner's needs. There is sufficient space for a proper bed, wardrobe, and additional furniture, making it a truly flexible room that adapts to different lifestyles.

Both bedrooms are positioned to offer privacy from the main living areas, creating a clear separation between social and resting zones — an important feature for comfortable long-term living as well as strong rental appeal.
